So I finally got the actual scoop from Brad this morning, they led me a little astray by not keeping me in the loop yesterday. The field inspector is there this morning, and is supposed to call me back after checking with the fire/hazmat teams for air monitoring. I left the reporting person Todd Nardoizzi with Energy Transfer Partners a voicemail requesting more info in regards to the oiled homes. Will keep you posted as I hear more.

Did you ever hear back from Brad Ice? Was anyone doing air monitoring?

Did he mention the oiled houses?
